2 MATERIAL ACCOUNTING POLICIES

a. Basis of preparation
The financial statements have been prepared in accordance with Indonesian Financial Accounting Standards (SAK Indonesia/PSAK) issued by DSAK-IAI, on the accrual basis and the historical cost convention, except as stated otherwise. The statement of cash flows uses the indirect method. The functional and presentation currency is Indonesian Rupiah.

b. Cash and cash equivalents
Cash and cash equivalents comprise cash on hand, cash in banks and time deposits with maturities of three months or less that are not pledged.

c. Financial Instruments (PSAK 109)
Trade receivables are measured at amortised cost less an allowance for expected credit losses (ECL) using a simplified approach based on historical loss experience adjusted for forward-looking information.

d. Inventories (PSAK 202)
Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method.

e. Prepaid expenses
Prepaid rent, insurance and software subscriptions are amortised on a straight-line basis over the period of benefit (see Prepaid Schedule).

f. Fixed assets & Intangibles (PSAK 216 / PSAK 238)
Fixed assets are stated at cost less accumulated depreciation. Depreciation is calculated using the straight-line method from the month of acquisition: buildings 20 years; vehicles and machinery & equipment 8 years; office furniture & equipment and intangibles 4 years. Land is not depreciated.

g. Revenue (PSAK 115)
Revenue from the sale of goods is recognised at a point in time when control transfers to the customer, generally upon handover at the store or delivery to the courier (PSAK 115).

h. Employee benefits (PSAK 219)
Short-term employee benefits are recognised when services are rendered. Post-employment benefits under Law No. 6/2023 are provided for based on management's estimate (actuarial valuation to be obtained at year-end).

i. Income tax (PSAK 212) & VAT
Current tax expense is determined based on taxable income for the period using the prevailing rate, including the Art. 31E facility where applicable. Interest income subject to final tax is excluded from taxable income. Revenue, expenses and assets are recognised net of VAT; Input and Output VAT are offset monthly. Deferred tax has not been recognised in these interim financial statements (simplification).
