Afreshia Laffintha Asmy

Senior Associate | Chartered Accountant (IAI) | Financial Reporting, Tax Compliance & Internal Audit | CAAT | CTT | Brevet A & B
Kota Malang, Jawa Timur, Indonesia

Ringkasan

Hello, I'm a Chartered Accountant (IAI) and finance professional based in Indonesia, specializing in financial reporting, tax compliance, accounting operations, and internal audit for small and medium-sized enterprises across construction, manufacturing, retail, and F&B industries. As a Senior Associate at FP Consulting Indonesia, I manage end-to-end monthly bookkeeping and financial reporting for a portfolio of 20+ clients, reconcile 5,000+ transactions across bank, cash, receivables, and payables accounts each month, and handle Indonesian tax compliance, including VAT/PPN, income tax/PPH, and annual tax returns (SPT Tahunan) through the government's CoreTax system. My work goes beyond routine accounting. I focus on ensuring that financial information is accurate, well-supported, and useful for decision-making. I regularly investigate reconciliation discrepancies, review supporting documentation, identify accounting and tax risks, and coordinate adjustments with clients to ensure their financial records remain reliable and compliant. I also support businesses in improving their accounting processes through cloud-based accounting systems, including Accurate, Mekari Jurnal, MYOB, and Zahir. This includes helping clients streamline transaction recording, improve financial reporting workflows, strengthen documentation, and build more efficient accounting processes. I hold a Bachelor's degree in Accounting from Universitas Negeri Malang with a GPA of 3.9/4.0, and I have pursued additional professional training in corporate finance and machine learning applications for finance professionals through ACCA. What I bring is a combination of technical accounting expertise, tax knowledge, analytical thinking, and a process-improvement mindset. I enjoy working at the intersection of finance, technology, and business operations, particularly where better financial processes can lead to better business decisions. I'm currently open to remote and international opportunities where I can contribute to a high-performing team, take on greater responsibility, and continue growing as a finance and accounting professional.

Pengalaman

FP Consulting Indonesia

1 tahun 10 bulan

Assistant Manager – AI & Knowledge Development

September 2026 - Present (2 bulan)

Kota Tangerang

Lead the development and implementation of AI-powered tools, web-based solutions, automation workflows, and SOPs to improve the efficiency, accuracy, and scalability of accounting and professional services.

Key responsibilities and achievements:

- Develop AI and web-based solutions for accounting, tax, payroll, reporting, and administrative processes.
- Automate repetitive workflows and standardize processes to reduce manual work and improve consistency.
- Establish AI governance, quality controls, testing procedures, and data-security standards.
- Create SOPs, workflow documentation, user guides, and internal knowledge bases.
- Train team members and support the adoption of new technologies and procedures.
- Evaluate AI tools, subscriptions, costs, risks, and business impact.
- Continue overseeing client-related accounting and financial consulting responsibilities.

Senior Associate

Juli 2026 - Present (4 bulan)

Kota Tangerang

1. Manage monthly bookkeeping and financial reporting for a portfolio of clients
2. Perform bank, cash, receivables, payables, and tax account reconciliations
3. Prepare accounting and tax working papers, plus monthly/annual tax documentation
4. Conduct first-level review of work from staff, probation staff, and junior associates
5. Provide technical guidance and mentorship to junior team members
6. Serve as primary client contact for data requests, clarifications, and progress updates
7. Ensure deliverables meet company SOPs, checklists, and quality standards prior to Manager/Supervisor review

8. Support new client onboarding and maintain internal documentation, templates, and checklists

Accountant and Financial Consultant

Januari 2025 - Juni 2026 (1 tahun 6 bulan)

Kota Tangerang

1. Prepare and analyze monthly financial statements for multiple clients across diverse industries, including construction, manufacturing, retail, and F&B.
2. Perform bank reconciliations involving more than 3,000 transactions monthly, ensuring data accuracy and completeness.
3. Manage tax reporting and compliance, including Regional Tax, VAT (PPN), Income Tax (PPh), Corporate Tax (PPh Badan), and Annual Tax Return (SPT Tahunan) through CoreTax system.

Ensure regulatory and tax compliance aligned with each client's business sector and local laws.

4. Conduct financial audits and review client bookkeeping and reporting for accuracy and compliance.

Provide strategic financial and business consulting services, offering insights for decision-making and operational efficiency.

5. Perform business process analysis to identify areas for improvement and implement cloud-based accounting solutions.
6. Assess operational and financial risks by evaluating clients' Standard Operating Procedures (SOPs) and internal controls.
